

December 15, 2008

Dear Elk System Producer,

This mailing is to inform you of the 2009 chart change dates for meters in the Elk system. These chart change dates are different from those in the other Gatherco systems as this gas is delivered to Dominion which operates on a different calendar than TCO. Again, these chart change dates apply only to meters in the Elk system. If you have additional meters on other Gatherco systems, continue to change them on the normal Gatherco schedule. Please do not hold the charts from any system before mailing. We request that you mail charts to Gatherco within 2 days of the chart change date.

## **2009 Elk System chart changing schedule:**
